E-CONTENT (HOME ASSIGNMENT)

CLASS- II

SUBJECT- COMPUTER

CHAP – 7 COMPUTER MOUSE

Selecting an Item: Selecting an item on the monitor means highlighting it. We can follow the following steps for this purpose:

- ✓ Move the mouse pointer to a document on the screen.
- ✓ Click the document once.
- ✓ Its color changes which shows the document is selected.
- ✓ In order to open the selected document, you can click the left mouse button twice.

Using the Right Mouse Button: When you click the right button of the mouse once it opens the set of options.

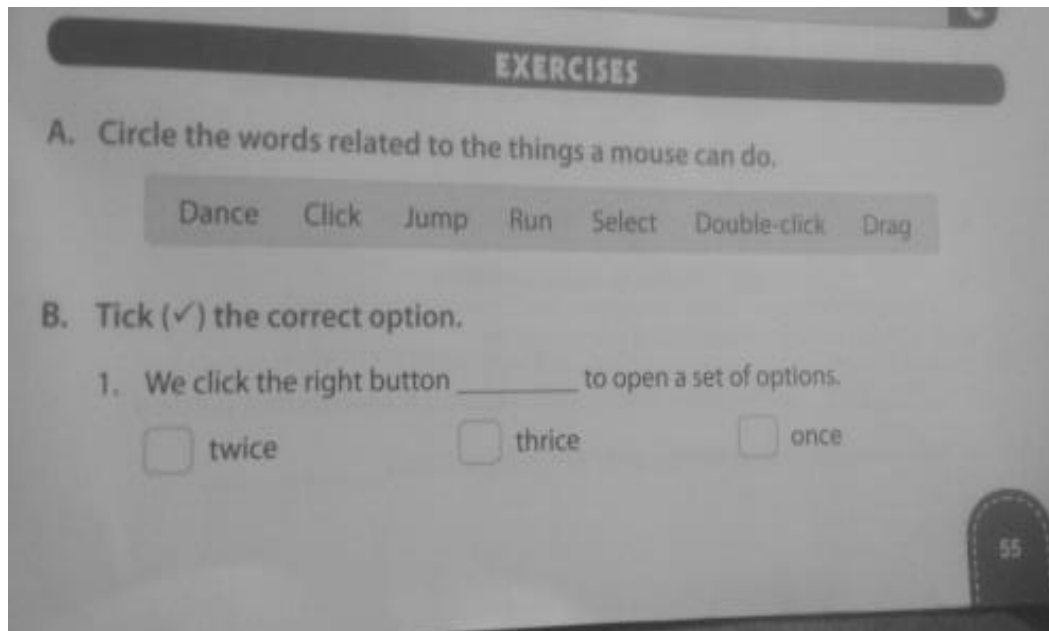

Dragging: Moving a mouse while keeping the left mouse button pressed is called dragging. It is used to move an item from one place to another on the screen.

Dropping: Releasing the mouse button after dragging is called dropping.

To drag and drop an item on the screen, we can follow the given steps:

- Select a file by clicking the left mouse button.
- Hold the left button pressed and move the mouse.
- The selected file also moves which is dragging.
- Release the mouse button.
- The file stays at the new place. This action is called dropping.
