some facts to remember.

1. Any number minus the number itself, the result is 'zero'  
e.g  $18 - 18 = 0$
2. If 0 is subtracted from any number, the result is the number itself.  
e.g  $20 - 0 = 20$
3. In subtraction, the bigger number is always written first. we can't subtract bigger number from smaller one
4. In subtraction, we can't change the order of numbers.
