WORD PROBLEMS WITH DOUBLE STEP

Ex: 1 A factory produces 2700 boxes in a day. How many boxes will be produced in the month of March and April?

Sol: Step I Days in March = 31
Days in April = \oplus 30
Total days in March & April = 61

Step II

Boxes produced in 1 day = 2700
Boxes produced in 61 days = 2700×61

$$\begin{array}{r} \oplus \\ 2700 \\ \times 61 \\ \hline 2700 \\ \oplus 162000 \\ \hline \underline{164700} \end{array} \quad \text{Ans } 164700 \text{ boxes}$$

Ex 2: - A baker put 4 rows of pastries in a box. Each row had 5 pastries. The baker packed 10 such boxes. How many pastries did he pack?

Sol: Step I Pastries in 1 row = 5
Pastries in 4 rows = 5×4
= 20

As 1 box has 4 rows so there are 20 pastries in 1 box.

Step II

Pasteries in 1 box = 20

Pasteries in 10 boxes = 20×10
= 200

Ans = 200 pasteries in 10 boxes.

Chapter 7 More Features of MS-WORD

USING SPELLING AND GRAMMAR FEATURE

When we make mistakes while typing in MS-Word, it helps us to identify our mistakes by underlining them.

MS-Word underlines the spelling mistakes with red wavy line and grammatical mistakes with green wavy line.

MS-Word underlines those words which are not available in its in-built dictionary. It may be names of people or names of some places etc.

We can use Spelling and Grammar feature to check and correct our mistakes in entire document.

Steps to use Spelling and Grammar Feature

1. Place your cursor from where you want to start spelling and grammar check.
2. Click on **Review tab** → **Proofing group** → **Spelling and Grammar** option.

OR

Press **F7** Key to open Spelling and Grammar Dialog box.

3. The Spelling and Grammar dialog box will list out our mistakes one by one and also suggestions to correct them.
4. Choose the correctly spelt word and click on **Change** button to replace the word.

You can also click on **Change All** button to replace all the occurrences of this word in document.

You can also click on **Ignore Once** or **Ignore All** buttons, if you don't want to make any changes.

5. Click on **Ok** button to complete the process.

Other method to correct the misspelt words:

1. Right click on misspelt word.
2. Choose the correct spelling from pop up menu.

USING THESAURUS

Thesaurus is an in-built dictionary used in MS-Word. It is used to find the meaning (synonyms) and opposites (antonyms) for a particular word.

Steps to use Thesaurus:

1. Select the word for which you want to look for synonym.
2. Click on **Review tab** → **Proofing group** → **Thesaurus** option.
A list of synonyms will appear in **Research task pane** on right side of window.
3. Click on **down arrow** next to the word that you want to use and click on **Insert** button

OR

Right click on word and choose Synonyms option.
