

Institutional Planning Policy

It is based on the principle of optimum initialization of resources available in the school and the community. It is a part of educational planning.

The school has a monumental vision of developing personality and confidence among the students to fight against all kinds of odds and lead the nation with utmost loyalty.

1. The school incorporates constant and continuous guidance and motivation from higher authorities.
2. The school always plans their strategies and pedagogies to make them a role model for all teachers and further implemented to the students.
3. Qualitative and quantitative improvement in the academic result has always been at the forefront.
4. School believes in the optimum utilization of the existing resources for furnishing the beauty of campus.
5. Integrating creativity in the students with their academic caliber, innovations and zeal to do something new has always been the highlighting principle of the school.
6. Prime motto of the school relating to furnishing the teaching-learning pedagogy by innovative ideas is always given monumental priority.
7. The management, staff, alumni, parents and other collective process.
8. Setting the specific targets, school implements documented policies and procedures which are shared amongst the management as well as the staff.
9. Mentoring monitoring the progress of students through effective improvement plans by the staff under the guidance of management and HoD's is always taken into consideration.
10. Imparting realism and concreteness to educational planning is a prominent feature of the institutional planning of the school.
