

## **Management and Governance Policy**

The school's Governance is significant in ensuring the longevity of the organization and the enduring relevance of its programmes. The structure of the diverse committees in school is based on respect, representation and collaboration.

1. Ensuring teachers who deliver the school's educational curriculum are afforded every opportunity to develop themselves professionally.
2. Ensuring that the school's experience is an enjoyable one that assists in preparing for embracing opportunities for the future.
3. School operates on proper planning of the management of financial resources of its smooth functioning.
4. Various educational activities like field trips, excursions and tours, Making the plan of expenditure for co-curricular and extra curricular activities such as organizing events, Club, Sports are done in accordance with appropriate planning.
5. Classroom management also involves the management of resources of the class. Supervision is a service for helping the teachers become better and bring coordination between various school resources. The head of the school acts as a leader to provide leadership qualities among the teachers.
6. The school management and leadership team ensures that the vision is the guiding force behind planning for all academic and non academic processes.
7. The school encompasses written vision and mission statements framed by its management on the governing body including the values and opportunities for the cognitive and social development of students.
8. Regular feedbacks from the stakeholders is done in a consistent way to keep the management and governance of the school is sync with its vision and mission.
