

Transportation guidelines for Divyang

1. It is important that certified transit wheelchair to be used as the mode of transport.
2. To provide medical assistance in case of emergencies, a nurse or aid with sufficient medical training should be on board.
3. The guardian of the word with special needs should be kept informed of all the transport specifications.
4. Emergency evacuation instructions must be made and trained by the school staff.
5. Any kind of discomfort regarding seating arrangement in the bus should be avoided.
6. Respect and treat children with special needs with empathy.
7. The tone, language and the mannerism all need to be adjusted by the school transportation staff to accommodate the physical and emotional needs of children.
8. Any evidence of neglect or abuse must be reported to the school authority on immediate basis.
